octoplant

Resilience against disruptions

octoplant is the established industry standard for storing, versioning, and comparing entire production environments, providing fast recovery and protection against unwanted changes.

Meet octoplant, the state-of-the-art software designed to boost production resilience in your operations. With advanced technology and robust architecture, octoplant safeguards against undesired changes and minimizes response time to unforeseen disruptions. It delivers the reliability and flexibility required to keep performance at its best.

octoplant ensures data consistency and enhances protection of production output, tailored to the specific needs of individual plants and multi-site operations. With integrated business intelligence, it continuously monitors and evaluates systems, delivering essential insights to maintain daily production security across its eight core elements.

3,000+
customers worldwide

100+
partners across the globe

60%
of the worlds' largest manufacturers uses octoplant

1,000,000
industrial devices relay on octoplant everyday

AMDT

octoplant

Threat Protection
Take proactive action to prevent security breaches

Assets Safeguarding
Ensure all devices are configured correctly

Device Management
Centrally manage your OT and related IT components

Business Intelligence
Make better decisions

Instant Recovery
Quickly restore the right system configurations

Versioning
Go back in time, track changes, and find configurations that worked

Operational Efficiency
Drive efficient operations

Compliance Management
Fulfill regulatory requirements and streamline production audits

---

octoplant stores, versions, and compares all shopfloor devices and documents, providing enhanced management for over 150 common OT and IT-related devices

ABB | rexroth A Bosch Company | Rockwell Automation | SIEMENS | AVEVA | GE | WAGO

PHOENIX CONTACT | MITSUBISHI ELECTRIC Changes for the Better | KEYENCE | Atlas Copco | HIRSCHMANN | YASKAWA

BECKHOFF | KUKA | KISTLER | COGNEX | SEW EURODRIVE | hp | Schneider Electric

EMERSON | Acronis | COPADATA | CISCO | OMRON | EPLAN | Lenze | FANUC

Level up your production resilience to an enterprise view with octoplant pro hub

octoplant PRO HUB

- Enterprise-wide visibility incl. site view
- Enterprise-wide comparison
- Cross-system correlation check

AMDT is the global leader in backup, version control, and comparison solutions for industrial automation, built on nearly 40 years of specialized expertise.

Our mission, "Production Resilience Delivered," reflects our commitment to ensuring that automated production systems are secure, resilient, and capable of fast recovery from disruptions, thereby safeguarding production output. Established in 2022 through the merger of AUVESY GmbH and MDT Software Inc., AMDT is headquartered in Landau, Germany, with offices in the USA and China. Our extensive global network includes over 100 partners, and we proudly support more than 3,000 customers worldwide, helping them maintain optimal performance and resilience in their production environments.
